## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher J. Reckamp, Reg. No. 34,414 on 01/23/06.

The application has been amended as follows:

Claims 13-20 have been cancelled without prejudice.

#### ***Allowable Subject Matter***

2. Claims 1, 3-4 and 21 allowed.

3. The following is an examiner's statement of reasons for allowance: with respect to claim 1, the instant invention is directed to a method for tuning a system, comprising tuning a video tuner to a first and second frequency. The relevant prior art of records such as **Dangschat (5,173,777)** discloses circuit configuration for inset-image keying in a television set having only one tuner. **Izumi (6,233,227)** discloses transmitting and receiving apparatus. **Bugwadia et al (6,229,570)** disclose motion compensation image interpolation-frame rate conversion for HDTV. **Shirahama et al (6,067,124)** disclose image processing apparatus and processing method. However neither **Dangschat**, **Isumi**, **Bugwadia** nor **Shirahama** and any of the cited references teach or suggest, alone or in combination the feature of "receiving a first field of video

on the first frequency, interpolating missing image data for the received first field, after a video blanking interval is detected in a video signal on the first frequency, tuning the video to a second frequency, displaying the first field of video with interpolated missing image data on a display device, receiving a first field of video on the second frequency, interpolating missing image data for the received first field on the second frequency, after a video blanking interval is detected in a video signal on the second frequency, retuning the video tuner to the first frequency, and displaying the second field of video with the interpolated missing image data on the display device.” as recited in the instant invention with respect to independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Annan Q. Shang** whose telephone number is **571-272-7355**. The examiner can normally be reached on **700am-400pm**.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Christopher S. Kelley** can be reached on **571-272-7331**. The fax phone number for the organization where this application or proceeding is assigned is **571-273-8300**.
